-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 March 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. The application contains claims directed to the following distinct species of the claimed invention:

Claims 2-8, 11-22, 24-47, 54-55, and 58-63 are directed to 8 species as illustrated in figures 1 and 8.

Species 1 – claims 2-8 and 11-19 are directed to an acoustic receiver comprising a jacket having at least three sections for directly engaging at least three sides of the housing.

Species 2 – claims 20-24 and 62 are directed to a transducer comprising a jacket surrounding at least a portion of the housing prior to installation of the transducer into a hearing aid or telecommunications system.

Species 3 – claim 25 is directed to a transducer comprising a jacket including a layer of acoustic damping material.

Species 4 – claims 26-30 are directed to an acoustic receiver comprising a jacket having sections for at least partially enfolding the sides of the housing.

Species 5 – claims 31-35 are directed to an acoustic receiver comprising a jacket having a rectangular cross section.

Species 6 – claims 36-41 are directed to an acoustic receiver comprising an epoxy jacket including an acoustic damping material located on a surface of the epoxy jacket opposing the housing.

Species 7 – claims 42-47 are directed to an acoustic receiver comprising a jacket spaced away from the housing to form a gap and acoustic damping material filling the gap.

Species 8 – claims 54-55, 58-61 and 63 are directed a transducer comprising a jacket surrounding at least a portion of the housing and at least two sections of the jacket being permanently affixed to the at least two sides of the housing

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan D. Nguyen whose telephone number is (571) 272-8163. The examiner can normally be reached on M-F 6:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curt Kuntz can be reached on (571) 272-7499.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
